(613) 867-7727

Ottawa, Ontario

➤ Senior developer, full stack

➤ ~7 years frontend

➤ ~3.8 years backend & DevOps

➤ Lead developer on **GC InfoBase** (canada.ca/gcinfobase), a **React SPA client** backed by a **serverless GraphQL API**, presenting government data to the public through visualizations and exploration tools

➤ Honours B.Sc. Physics-Mathematics, uOttawa (2017)

Curriculum Vitae

09/2017 - Ongoing – Senior Developer, Expenditure Management Sector (EMS), Treasury Board of Canada Secretariat (TBS)

- Lead GC InfoBase developer since Summer 2018, responsible for the project's technical direction, overall design, and developer talent
 - Iterating on and maintaining the project's large React frontend
 - E.g. wrote an accessible typeahead search capable of displaying mixed local & async results, replacing an unmaintained and less flexible external library
 - Building backend microservices to support the main application
 - E.g. built a flexible form template service, used to collect, validate, store, and alert the team across multiple lines of user feedback
 - Architecting and administering infrastructure and operations
 - E.g. transitioned hosting from a static file server administered by an external team to cloud hosting & an internal DevOps culture. Brought the deployment process from days to minutes while providing a capable backend + flexible & faster hosting
 - Developing tooling and practices as multipliers on team productivity
 - E.g. CI deployments of full, per-branch, development builds for quicker feedback and review cycles
 - Championing code standards, review practices, testing, CI/CD, and working in the open
 - E.g. convinced colleagues and upper management of the benefits to going open source; awarded in recognition of the impacts one year on
 - Hiring, supervising, and mentoring of junior developers and students
 - Supervised 10 students to date, 5 of which have returned for subsequent terms with 2 joining the team upon graduation
- On an emergency placement, built the tool used for centralized tracking of COVID-19 related expenditures across all government departments
 - Quickly learnt Python, Django, an existing internal platform's code & environment, and the business needs; began implementation by day 6
 - Individually developed the new collection tool off the existing platform, with robust user and admin workflows, meeting a tight 3 month target
 - Contributed refinements to the existing platform's testing patterns

01/2015 - 09/2017 – Student, Office of the Chief Human Resources Officer, TBS (alternating full-time CO-OP terms and part-time contracts)

- Developed early HR portions of GC InfoBase. Self-taught JS/HTML/CSS, git, and the existing code base to do so

09/2012 - 04/2017 – Honours Bachelour of Science in Physics-Mathematics, Cum Laude, University of Ottawa

Languages

- JavaScript & TypeScript
- HTML5
- CSS & Sass
- sh & Bash
- Python 3

Libraries & Frameworks

- React
- GraphQL (E.g. Apollo)
- Lodash
- Webpack
- Jest
- React Testing Library
- Express.js
- Mongoose
- Django

Tools

- git
- VSCode
- Docker

Platforms

- Google Cloud
- MongoDB Atlas
- CircleCI
