# Stephen O'Neil Full Stack Web App Dev

(613) 867-7727

github.com/Stephen-ONeil
github.com/TBS-EACPD/infobase
Stephen.Levi.ONeil@gmail.com
Ottawa, Ontario

- ➤ Senior developer, full stack
  - > ~6.9 years frontend
  - > ~3.7 years backend & DevOps
- ➤ Currently lead on GC InfoBase (<u>canada.ca/gcinfobase</u>), a React client backed by a serverless GraphQL API, presenting government data to the public through visualizations and exploration tools
- ➤ Honours B.Sc. Physics-Mathematics, uOttawa (2017)

## Skill Highlights

#### ➤ Languages

▶ JavaScript & TypeScript – HTML5 – CSS & Sass – sh & Bash – Python 3

#### ➤ Libraries & Frameworks

- React GraphQL (E.g. Apollo)
   Lodash Webpack Jest –
   Express.js Mongoose Django
- ➤ Tools, Platforms, & Environments
  - ⇒ git VSCode Docker CircleCI – Google Cloud – MongoDB Atlas – Unix & POSIX systems

#### ➤ Other

➤ Architecture – UI/UX – A11y – Hiring, supervising, and mentoring – Interfacing with management and partners

## As a Developer, I...

- ➤ Prefer done right, right now, over done yesterday. The "done yesterday" mindset is opposed to "still works tomorrow".
  - Me, here, on my resume
- ➤ Strive to make ethical and usercentric design decisions, from performance to accessibility
- ➤ Value developer experience and project velocity, but not at the compromise of maintainability or user experience
- ➤ Continuously seek to invest in my skills, both tech & soft
  - ► I keep up with 60+ web dev blogs & news letters in my free time. Sunday morning habit

### **Curriculum Vitae**

**09/2017 - Ongoing – Senior Developer**, Expenditure Management Sector (EMS), Treasury Board of Canada Secretariat (TBS)

- ➤ Emergency developer loan, built the tool used for centralized tracking of COVID-19 related expenditures across all government departments
  - ➤ Quickly learnt Python, Django, an existing internal platform's code & environment, and the business needs; began implementation by day 6
  - Individually developed the new collection tool off the existing platform, with robust user and admin workflows, meeting a tight 3 month target
  - Contributed refinements to the existing platform's testing patterns
- ➤ Lead GC InfoBase developer since Summer 2018, responsible for the project's technical direction, overall design, and developer talent
  - ▶ Iterating on and maintaining the large React frontend
     ▷ E.g. wrote an accessible search typeahead capable of displaying mixed local/async results, replacing an unmaintained and less flexible library
  - ➤ Building backend microservices to support the main application ➤ E.g. built a flexible form template service, used to collect, validate, store, and alert the team across multiple lines of user feedback
  - ➤ Architecting and administering infrastructure and operations

    > E.g. transitioned hosting from a static file server administered by an external team to cloud hosting & an internal DevOps culture. Brought the deployment process from days to minutes while providing a capable backend + flexible & faster hosting
  - Developing tooling and practices as multipliers on team productivity
     E.g. CI deployments of full, per-branch, development builds for quicker feedback and review cycles
  - Championing code standards, review practices, testing, CI/CD, and working in the open
    - > E.g. convinced colleagues and upper management of the benefits to going open source; awarded in recognition of the impacts one year on
  - ➤ Hiring, supervising, and mentoring of juniour developers and students

    > Supervised 10 students to date, 5 of which have returned for subsequent terms with 2 joining the team upon graduation

**O1/2015 - O9/2017 – Student**, Office of the Chief Human Resources Officer, TBS (alternating full time CO-OP terms and part-time contracts)

➤ Developed early HR portions of GC InfoBase. Self-taught JS/HTML/CSS, git, and the code base itself to do so, despite isolation from core dev team

**09/2012 - 04/2017** – Honours Bachelour of Science in Physics-Mathematics, University of Ottawa
